

RISK ASSESSMENT 2015

Patient _____ Dr _____ Date _____

Risk Factors	Low	Medium	High
Medical Status	ASA TYPE 1 Non Smoker	ASA TYPE 2 Light Smoker	ASA TYPE 3 Heavy Smoker
Patient's Esthetic Expectations	Low	Medium	High
Smile Line	Low	Medium	High
Periodontal Status	Healthy	Gingivitis	Periodontitis
Gingival Levels and Biotype	Even Levels, Low-Scallop, Thick Biotype	Slightly Uneven, Medium-scalloped, Medium Biotype	Uneven Levels (>1.0 mm), Highly-Scalloped, Thin Biotype
Biomechanics	Healthy Intact Teeth 2 to 3 Small Restoration Caries Resistant	More then 3 Small- Medium Restorations	Endodontic Treatment Large Restorations Caries Susceptible
Tooth Alignment	Normal Arch Form	Minor Crowding	Significant Crowding
TMJ/Muscles	Normal Load Test Negative Normal ROM	Muscle Pain Can Accept Load with Tension	TMJ Pain Load Tests Positive Abnormal ROM
Bite Force	Normal Muscle Size and Bite Force	Moderate Muscle Size and Bite Force	Large Muscle Size and High Bite Force
Tooth Wear	Low to No Wear	Moderate Wear, Attrition, Erosion	Heavy Wear, Attrition, Erosion
Chewing Pattern	Vertical	Side to Side	Front to Back, All Around
Guidance Pattern	Average Guidance on Cuspids	Steep Guidance	Flat Guidance, Group Function
Occlusal Design	Class I	Class III, End to End	Class II, Deep Overbite, Large Overjet, Openbite
Occlusal Planes	Level	Posterior Step	Canted Facially Flat Sagittally
Occlusal Disease	Normal Function	Restricted Chewing Pattern, Parafunction Occlusal Dysfunction	Bruxism, Bite Changes
